

# Ecodesign on the Textile Sector

## Assignment

1. Units: 05 - 06 - 07 ..... 2

## 1. Units: 05 - 06 - 07

This group of units is the last one related to the preliminary design phases.

Based on what you have analysed (in previous Units) and learned (in these 3 Units), outlines for your concept which certifications it is useful to acquire and which advantages they entail; finally make a consideration on the LCA, identifying a comparative one if already existing, or describe the development process.
